SVC Coordination

Virtueller Campus Schweiz

Campus Virtuale Svizzera

Campus Virtuel Suisse

Swiss Virtual Campus

SVK·CUS

SVC Coordination 2000 - 2003

For the SVC Steering Committee:

- administration and support

For the SVC Community:

- Organize meetings, contacts, support
- Show the fascinating variety of SVC courses

SVK·CUS

Extension of Services by the SVC Coordination 2004 - 2007 ?

- Coordination of the development of Swiss and international competences and projects. Organization of meetings for representatives of e-learning competence centers
- Development of suitable certification criteria and procedures (in collaboration with the federal office for accreditation and quality assurance).
- Organization of continuing education (together with the association of centers for continuing education at Swiss universities www.swissuni.ch), and qualifying workshops.

SVK-CUS

Suggested tasks for the coordination 2004 - 2007: lifelong learning etc.

- Channel e-learning offerings into the life-long education market.
- Coordination of offerings.
- Brokerage function for e-learning offerings (information, consulting, marketing and networking).
- Provide statistical data to help politicians and managers argue for the further development of e-learning: number of courses, students, success in exams etc.
- etc.

√UK·CUS

Suggested tasks for the coordination 2004 - 2007: inter-university issues

Provision of support with respect to law, technology, standardization and other topics of general interest concerning inter-university issues:

- Organize virtual mobility ,at large‘, collaboration with SWITCH in the AAI project
- Understand economics and logistics of e-learning at large
- Build up international relations and (cross-)licencing.
- Coordinate the acquisition and maintenance of e-learning platforms

SUK·CUS

Suggested tasks for the coordination 2004 - 2007: inter-university services

- Organize access to appropriate introductions in e-learning for new SVC participants, and up-to-date, state-of-the-art continuing education in e-learning for experienced persons starting a new project. (Students ask for obligatory education of teaching staff in the possibilities and techniques of the new learning methods before starting a project .)
- Coordinate translation of SVC projects into the Swiss languages and English; provide a reliable and unexpensive translation service with students from the different Swiss universities.
- etc.

SVK·CUS

Future functions of the Swiss Virtual Campus?

- A network helping universities to integrate e-learning
- A framework where sharing and collaboration produces win-win situations
- A platform for e-learning in Swiss Higher Education
- A network for services on a national level
- ...

Possible collaborations for SVC projects

- With Centers for Continuing Education in Swiss Universities
- With Highschool Teachers Education:
possible PPP-SiN project

--> will be discussed during the workshops
on Wednesday afternoon
