

Swiss Virtual Campus

FACULTY OF
BIOMEDICAL SCIENCES

bio-medecine @ svc

A dozen

- projects
- subjects
- pedagogical concepts
- technical platforms
- differences and similarities
-  rich, creative !!!

CVS objectives

- Collaboration between institutions +++
- Pedagogical innovation +++

What is good, what is difficult?

Minus

- Political acceptance of project
- How to accommodate the different curriculum needs
- How to implement PBL on-line and force students to formulate learning objectives
- Students want PAPER
- How to get the graphics right
- How to get the content at the right level (from expert to student)

Plus

- + Collaboration with the other partners
- + On-line development of a tutor-tool
- + Having defined common learning objectives between universities
- + The importance to have recruited a good graphics designer
- + A tool to cluster students in working groups allowing activity tracking

Importance of meetings

- One day meeting January 18, 2002
- Time for all projects to present
- Learning from others, collaboration, ...

- Next meeting: September 2002

Wish ...

- Common entry portal for (medical) students
- Single logon
- The faculty of biomedical sciences?
