1- Where will you be according to the following phases?

(consider the initially planned and new modules)

- analysis
- conception
- production
- implementation
- evaluation-revision
- dissemination/adoption

2- What **problems** may be expected and what **solutions/** **tools/resources** are envisioned/**required/available** ?

- **pedagogical** : explicit and harmonized... what competencies, content, strategies-methods, tools, huge groups, instruction of instructors/tutors/students, support instructors/tutors/learners;
- **technological** : development, online management, user support, updating, new tools/services;
- **institutional** : student credits, incomes/costs, support/resources, choice/orientation, evaluation norms/practices;
- **project/team management** : multidisciplinary/institution teams, allocation of funds, active participation.

Your contribution...
